Governor Repair

Elliott's Fairfield service center is also a Woodward Authorized Independent Service Facility. We have more than 30 years of experience with Woodward governors, and we repair all Woodward governors and actuators used on steam and gas turbines, diesel generators, and propulsion drives, including TG, SG, EG, UG, PSG, and PG type controls. We use only Woodward manufactured and supplied replacement parts for our repairs. Customers turn to Elliott for all of their Woodward governor requirements – field service, troubleshooting, new and rebuilt controls, installation, testing, calibration, and training.

Submerged arc welding

Call on Elliott for all of your turbomachinery service needs.
