

Elliott Company conducts various seminars throughout the year. Our training programs offer experienced instructors to train operator, maintenance, and supervisory personnel in the proper utilization of turbomachinery. Our primary focus is to provide significant reductions in your operating and maintenance cost. Proper operation and maintenance is essential for long, reliable turbomachinery life.

COURSE INFORMATION

Enrollment:

To register for a course, contact the Elliott Technical Training Department in Jeannette, PA at 724-600-8521 or email: training@elliott-turbo.com.

Seminar Fee:

The prices indicated cover course tuition, training materials & manual (in color), lunch, dinner (one evening), refreshments, and attendance certificate.

Travel and living expenses are the responsibility of each student. Elliott assumes no liability for any fees that may be incurred due to the cancellation of any classes. We recommend that you book fully refundable air tickets or wait until the program is confirmed before booking your reservations.

Payment:

Payment for all factory courses is to be made 4 weeks prior to the class. We accept company checks (payable to Elliott Company) or credit card (Visa, MasterCard, or American Express).

Course Location and Hours:

All factory-training programs will be conducted at Elliott's headquarters in Jeannette, Pennsylvania USA, unless otherwise noted. The classes are held from 8:30 am to 4:00 pm daily.

Accommodations:

A block of rooms has been set-aside at a local hotel in Greensburg, PA. Reservation information will be provided when class is confirmed.

Transportation:

If you fly into Pittsburgh International Airport, it will take you approximately 1-2 hours to arrive to your hotel. Return flights should be scheduled for 7:00 pm or later on the last day of class.

Cancellations and Refunds:

If you must cancel, please notify the Elliott Technical Training Dept as soon as possible. Cancellations less than fifteen (15) days in advance of program are subject to one-half of the tuition fee. With prior notification, substitutions can be made. There are no refunds for "No Shows". Elliott reserves the right to cancel or reschedule any class. If Elliott cancels, a full refund for tuition will be made.

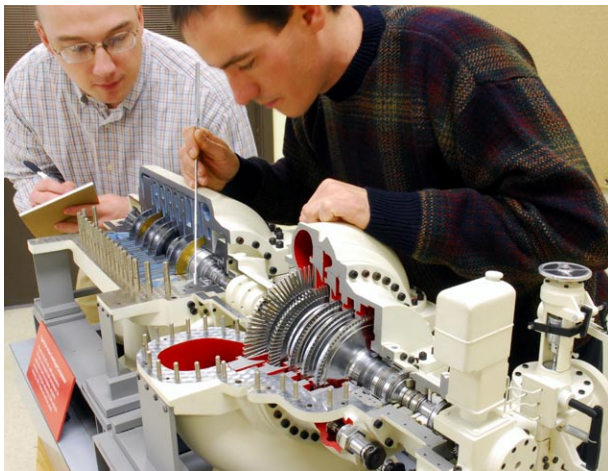

Turbomachinery Training

2010

The world turns to Elliott

COMPRESSORS ■ TURBINES ■ GLOBAL SERVICE

ELLIOTT YR TURBINE

Dates: April 13-15, 2010
 July 20-22, 2010
 October 5-7, 2010

Price: US\$ 990

This 3-day course is intended for operators, mechanics, engineers, and supervisory personnel responsible for the Elliott YR Turbine.

Course Overview

- YR Components & Function
- Disassembly / Assembly of a YR Turbine
- Start-Up & Operation
- Safety Precautions
- Proper Maintenance
- Workshops: Disassembly/Assembly of an AYR

ELLIOTT MSMV STEAM TURBINE

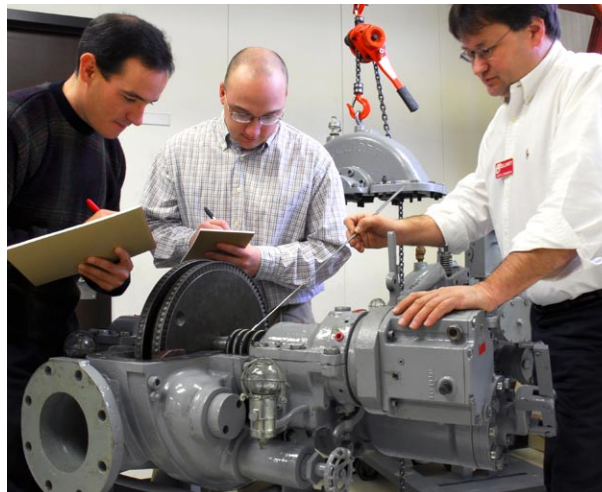

Date: March 15-17, 2010
 July 26-28, 2010
 October 18-20, 2010

Price: US\$ 1,285*

This 3-day course is intended for operations/maintenance, engineering and supervisory personnel responsible for the Elliott MSMV Steam Turbine.

Course Overview

- Steam Turbine Theory & Basic Thermodynamics
- Steam Turbine Components & Function
- Rotor Balancing
- Operation & Troubleshooting
- Preventative Maintenance
- Workshops: Bearing Failures & Coupling Disassembly

CUSTOMIZED ON-SITE TRAINING

When possible, Elliott recommends that training take place at Elliott – away from normal business and phone interruptions. However, when distance makes travel prohibitive, when staff availability is a problem, or when it is best that training be carried out at site (or using your own system configuration and equipment), Elliott will draw from its technical resources to prepare and present a course to meet your specific needs.

For a quote for customized on-site training, please call the Technical Training Department or send the following information by email to training@elliott-turbo.com.

1. Elliott Shop Order Number(s)
2. Desired Training Location
3. Number of Attendees
4. Attendees Job Status (eng, operator, etc.)
5. Desired date(s)
6. Agenda Requirements

Please check out our website for additional training programs and locations nearest you:
