

# Online Training

## Lube & Seal Systems

### Lube & Seal Systems: Introduction

*covers introduction to lubrication systems, the fundamental need for lubrication, major properties of concern for lube & seal oil, different ISO viscosity grades of oil typically used in Elliott equipment, and basic instrumentation (switches, transmitters, & controllers).*

**June 22, 2021: 9 am-11:15 am EDT**

**\$199 per person\***

**Register by June 11**

### Lube & Seal Systems: Major Components

*covers lube system major components (reservoir, pumps & drivers, pump relief valves & relief valve bypass valves, heat exchangers (oil coolers), oil filters, transfer valves, and control valves), options for oil systems (rundown tank, accumulator, and oil purifier), seal oil supply system, brief overview of dry gas seals, and buffer gas systems.*

**June 23, 2021: 9 am-12 pm EDT**

**\$199 per person\***

**Register by June 14**

### Lube & Seal Systems: Operation, Troubleshooting, and Maintenance

*covers commissioning/start-up, P&ID animation, troubleshooting, turnaround testing, preventative maintenance, and recommended spare parts.*

**June 24, 2021: 9 am-11:00 am EDT**

**\$199 per person\***

**Register by June 15**

*\* We can only accept credit card payment for these classes (Visa, MasterCard, or American Express).*

- **These live classes will be conducted via Webex.**
- **Each class will be approximately 2-3 hours long.**
- **Participants who complete the post-course evaluation will receive an attendance certificate.**

**To Register:**
