SUBJECT: Elliott Group to Supply Compressor Train for Sweeny Refinery

---

Jeannette, PA - April 9, 2015 - Phillips 66 has selected Elliott Group to supply a compressor string for a major project at its Sweeny refinery in Old Ocean, Texas. The project will enable the refinery to meet the requirements set forth by the Environmental Protection Agency's (EPA) Tier 3 clean fuels standards. Jacobs Engineering Group is the engineering procurement contractor for the project.

Elliott will provide a recycle compressor designed to increase clean product yield. The equipment string includes a 25 MB motor-driven compressor. The contract also includes a master service agreement between Elliott and Phillips 66. The unit will be built and tested in Elliott's Jeannette, Pennsylvania factory, with delivery scheduled for early 2016.

## **About Elliott Group**

Elliott Group is a global leader in the design, manufacture and service of technically advanced centrifugal compressors, steam turbines, power recover expanders and axial compressors used in the petrochemical, refining, oil & gas and process industries, as well as in power applications. The company employs 2600 persons in 40 locations around the world. Elliott Group is a wholly owned subsidiary of Ebara Corporation, a major industrial conglomerate headquartered in Tokyo, Japan. Ebara employs 15,000 people and has sales of US \$5 billion.
